I have an amazing opportunity to travel with my church in August 2016 to a remote mountain village in Guatemala. Curamericas Global is a Raleigh based organization that has a maternal health clinic to support pregnant women, a labor & delivery unit, and postpartum care for women and children. They also send medical teams and volunteers out to households for well baby/child visits. All of this is done through donations. I'd love to raise as much money as I can to support their amazing and lifesaving work. Personally, my own pregnancy was rough and then my labor and delivery was high risk. I'm blessed to live in the US and was able to deliver in a first world hospital. 5.9 million women and children around the world don't have that option and die of preventable conditions. Please donate if you can. All donations are tax deductible. I will be taking lots of photos and will be able to show you what your donation supported when I come home! Thank you in advance!
